

We are Hiring!

Virtus Lending LLC is a Non-Banking Financial Institution (NBFI) licensed by the Central Bank of the Republic of Kosovo. We offer loans and financial leasing for purchasing used cars without any restriction on make, model and year of production!. In order to expand the activity in the car financing market, Virtus Lending LLC is looking for qualified candidates for the position of "**Junior Software Developer**".

Junior Software Developer

Job Duties and Responsibilities

We are looking for junior software developers who are passionate about problem solving and who love exploring new technologies.

What you will be doing:

- Assist the head of development with all aspects of software design and coding.
- Active participation in the continuous optimization of our ERP and other projects.
- Learning the codebase and improving your coding skills.
- Further development of our website.
- Mastering everyday technical challenges faced by the company.

Required Competencies

Must have:

- 1-3 years of experience as a Software Developer.
- Experience with PHP.
- Experience with HTML5, JavaScript, jQuery, JS/TS, CSS.
- Experience with relational databases such as PostgreSQL and MySQL.
- Experience with GIT.
- Willingness to learn new software and technologies.

Nice to have:

- Knowledge of Zend, Laravel and Bootstrap frameworks.

The position is full time and office based.

The English language is a must.

We Offer:

- Competitive salary.
- Professional team and dynamic atmosphere.
- Great opportunity to be part of an innovative company in the process of expansion in the Kosovo market and beyond.

How to apply:

Send your CV to hr@virtuslending.com no later than August 12, 2022. Please refer in the e-mail subject the title of the position you are applying for, e.g. "**Junior Software Developer**". Only shortlisted candidates will be contacted.
